WEWELER®

INTEGRA

Designed for heavy demands with leading static load and lift performance

INTEGRA GEAR BOX

- Compact gearbox with high-strenght forged steel gear
- Low crank forces make day-to-day use easier

WEWELER® 3D BACKPLATE

- The sturdy shaft and 10-hole 3D backplate ensure durability and versatile mounting options, making the INTEGRA compatible with nearly all other brands

DRIVEN BY QUALITY

- Three year maintenance-free thanks to special **WEWELER®** dedicated premium grease
- Special E-coating provides long-term protection against corrosion and stone chipping

SPECIFICATIONS

- Static load capacity **60 Tonnes**
  Lifting capacity **25 Tonnes**
  Low gear ratio **1 mm per turn**
  High gear ratio **12 mm per turn**

3 YEARS WARRANTY

LIB790E	792	450	530	108	
LIB740E	742	400	bolt on*	105	
LIB690E	692	350	bolt on*	102	

* See LRS010001

Part No.	Description
LRS00105	Shaft E = 1500mm*
LRS0091	Handle A = 465mm*
LRS010001	Bolt on bracing

* Other lengths on demand

Technical data

Specification	Value
Static load	60 t
Lifting capacity	25 t
Lift per turn on handle	
- low gear	1 mm
- high gear	12 mm
